

To Whom it May concern

Dear Sir/Madam,

The assessment of GAVI Health System Strengthening Program in the implementing townships was jointly conducted by Ministry of Health Myanmar, Staffs from GAVI HSS section of WHO country office Myanmar and International Health Policy Program of the Ministry of Public Health of Thailand. As this is part of regular monitoring and evaluation of key programs in Myanmar, and it is not a research as such, hence an ethical clearance was waived for the surveys and the assessment of the GAVI HSS program.

with regards,

Dr Wai Mar Mar Htun
